

Send us your abstract to be part of the X SLATCC!

To all our LATAM community, we are happy to invite you to be part of the **X Latin American Symposium on Cell Culture Technology** to be held on November 13-16, 2024, in the beautiful city of Viña del Mar, Chile.

If your research falls into any of the following thematic areas, please send us an abstract so that you can be part of this incredible event:

1. Cell line development.
2. Cell metabolism and culture media optimization.
3. Upstream and Downstream Bioprocesses.
4. Biotherapeutics development and quality control.
5. Gene therapy and cell therapy.
6. Acellular: secretome, microvesicles, particles, and vaccines.

If your research is also gender-sensitive, mention it in your abstract to be in the running for a special prize!

Important dates:

Reception of abstracts: April 22 to July 19, 2024

Notification of acceptance: 5 August 2024.

Abstract Format: The abstract must be submitted via the application form. It should be written in English and include the following sections: **Title:** Informative using at least 8 nouns. Titles are often used in information retrieval systems. Avoid abbreviations and formulae where possible. **Author names:** The names of the authors should be presented in the following format: the first name followed by the first surname, with a comma separating the authors. Where the family name may be ambiguous (e.g., a double name), please indicate this clearly. Indicate all affiliations with a lower-case superscript letter immediately after the author's name and in front of the appropriate address. Provide the full postal address of each affiliation, including the country name and the e-mail address of each author. **Abstract:** The abstract should not exceed 400 words and must be structured into separate sections: **Background**, the context, and purpose of the study; **Methods**, the main methodologies relevant to your findings. **Results**, the main findings; **Conclusions**, brief summary, and potential implications. Please minimize the use of abbreviations and do not cite references in the abstract. **Nomenclature and units:** Follow internationally accepted rules and conventions: use the international system of units (SI). (<http://physics.nist.gov/Pubs/SP330/sp330.pdf>). If other quantities are mentioned, give their equivalent in SI.

If your work is gender-sensitive, you have 30 additional words to add a section where you clearly indicate how it is addressed in the development of the research.

Selected abstracts:

The Scientific Committee in charge of our collaborators will oversee rigorously reviewing each abstract and selecting the works to be presented at the X SLATCC. The Organizing Committee of the event will contact individually via e-mail with the authors of selected papers and will inform the modality in which they should present: poster or oral communication.

Then, the authors of selected papers must complete their registration to the event before September 27th to be part of the final program of the X SLATCC.

It should be noted that the best poster presentation will be awarded.

Languages

Although abstracts and posters must be written in English, oral presentations can be made in Spanish, Portuguese, or English.
